Reviews

*This pdf might be well worth a study, and a lot better than other. It really is simplistic but excitement inside the fifty percent in the book. Its been printed in an exceedingly straightforward way which is just after i finished reading this ebook through which really modified me, modify the way i believe.

Pennsylvania State University Press, United States, 2008. Paperback. Book Condition: New. 224 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Norman Austin has organized his analysis of classical Greek myths around Lacan's dichotomy between (ineffable) Being and the meanings imposed upon Being by culturally determined signifiers. The primary signifiers in myth (the gods), as projections of contradictory meanings, impel human consciousness in contradictory directions: toward heroic self-realization, on the one hand, and into the fear, guilt, and despair resulting from failure, on the other. The gods both reveal and occlude that which they signify the signified; ultimately, Being itself. Austin includes one chapter on the father's ghost in Shakespeare's Hamlet, and another on Albert Camus's The Stranger, as examples of the power of mythical archetypes to reveal and occlude Being, even when the apparatus of gods has been excluded. Despite their pessimism, ancient myths also affirm that the paradoxes are not insoluble. Austin concludes by outlining the profile of the Universal Self intimated in myth, religion, and philosophy as the joint venture of the world realized in consciousness, consciousness realized in consciousness, and consciousness realized in the world.
