Handbook of Queensland Geology (Paperback)

By Robert Logan Jack

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1886 Excerpt: .Creek, Clifton, Allora, and Farm Creek. Mr. Gregory remarks (p. 7) that the general character of the coals found between Woolloon and Warwick is that of Cannel Coal. It does not cake in coking; gives a large percentage of gas, or oil and paraffin, according to its treatment at a high or low temperature. Tts hardness renders it very suitable for export. It burns very freely, and leaves a soft white ash. From the small proportion of fixed carbon, and its not caking, it does not produce good coke, but a charred coal, which, however, burns well; consequently it is not well adapted for blast furnaces, On the Coal deposits of the West Moreton and Darling Downs Districts. Brisbane: By Authority, 1876. though well suited for reverberatory furnaces. As a steam coal it is best suited for stationary or marine engines, the strong blast of locomotives...
