A Compendium of Niosh Mining Research, 2000 (Paperback)

By Department of Health and Human Services: Centers for Disease Control and Prevention, National Institute for Occupational Safety and Health (NIOSH)

Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.To continue serving the safety and health needs of the Nation's miners, NIOSH is coordinating extensively with stakeholders across the country to obtain valuable insight into their priorities. This input, together with results from comprehensive analyses of safety and health data, has allowed us to begin balancing the mining research program to address the prioritized needs of miners in various industry sectors. This publication provides brief descriptions of the NIOSH projects dedicated to the primary mission of reducing miners occupational injury and illness including: hearing loss prevention; dust measurement and control; diesel emissions and toxic substances; hazard detection and warning devices; injury prevention and equipment design; training and education; ground control; fires, explosions, and ventilation; surveillance; and emerging technologies. The breadth and quality of research represented here is a true testament to the dedicated NIOSH researchers working in this field. As problems and issues emerge, or are effectively addressed over time, the research program will change accordingly, but it will continue to be based on a solid, scientific rationale and anchored in reality. NIOSH is always looking...
