Createspace Independent Publishing Platform, United States, 2012. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****. In Search of God: A Look at Life s Most Essential Question examines the centuries-old debate over the existence of God from the perspective of the Christian worldview, and with three particular points of emphasis: Part One: Reason in the Balances, looks at the philosophical assumptions of science and asks whether it is even rational to believe in God. Part Two: The Fingerprint of God, explores the nature of human intelligence and the question of whether man could have become a rational being through the process of unguided evolution. Part Three: The Serpent in the Garden - Reconciling the Person of God with the Problem of Evil, examines the issue of how it is possible for evil to exist in a universe where a supposedly loving, all-powerful God created only that which was good. Also included are two appendices. The first examines the common question of why a perfect God would require men to worship Him. The second outlines various essential characteristics of a true supreme being, and offers commentary on how these characteristics clash with the teachings of religions such as Zoroastrianism, Hinduism and Mormonism.
